

Create a new document with dimensions
450 x 320 mm @300 DPI, in RGB

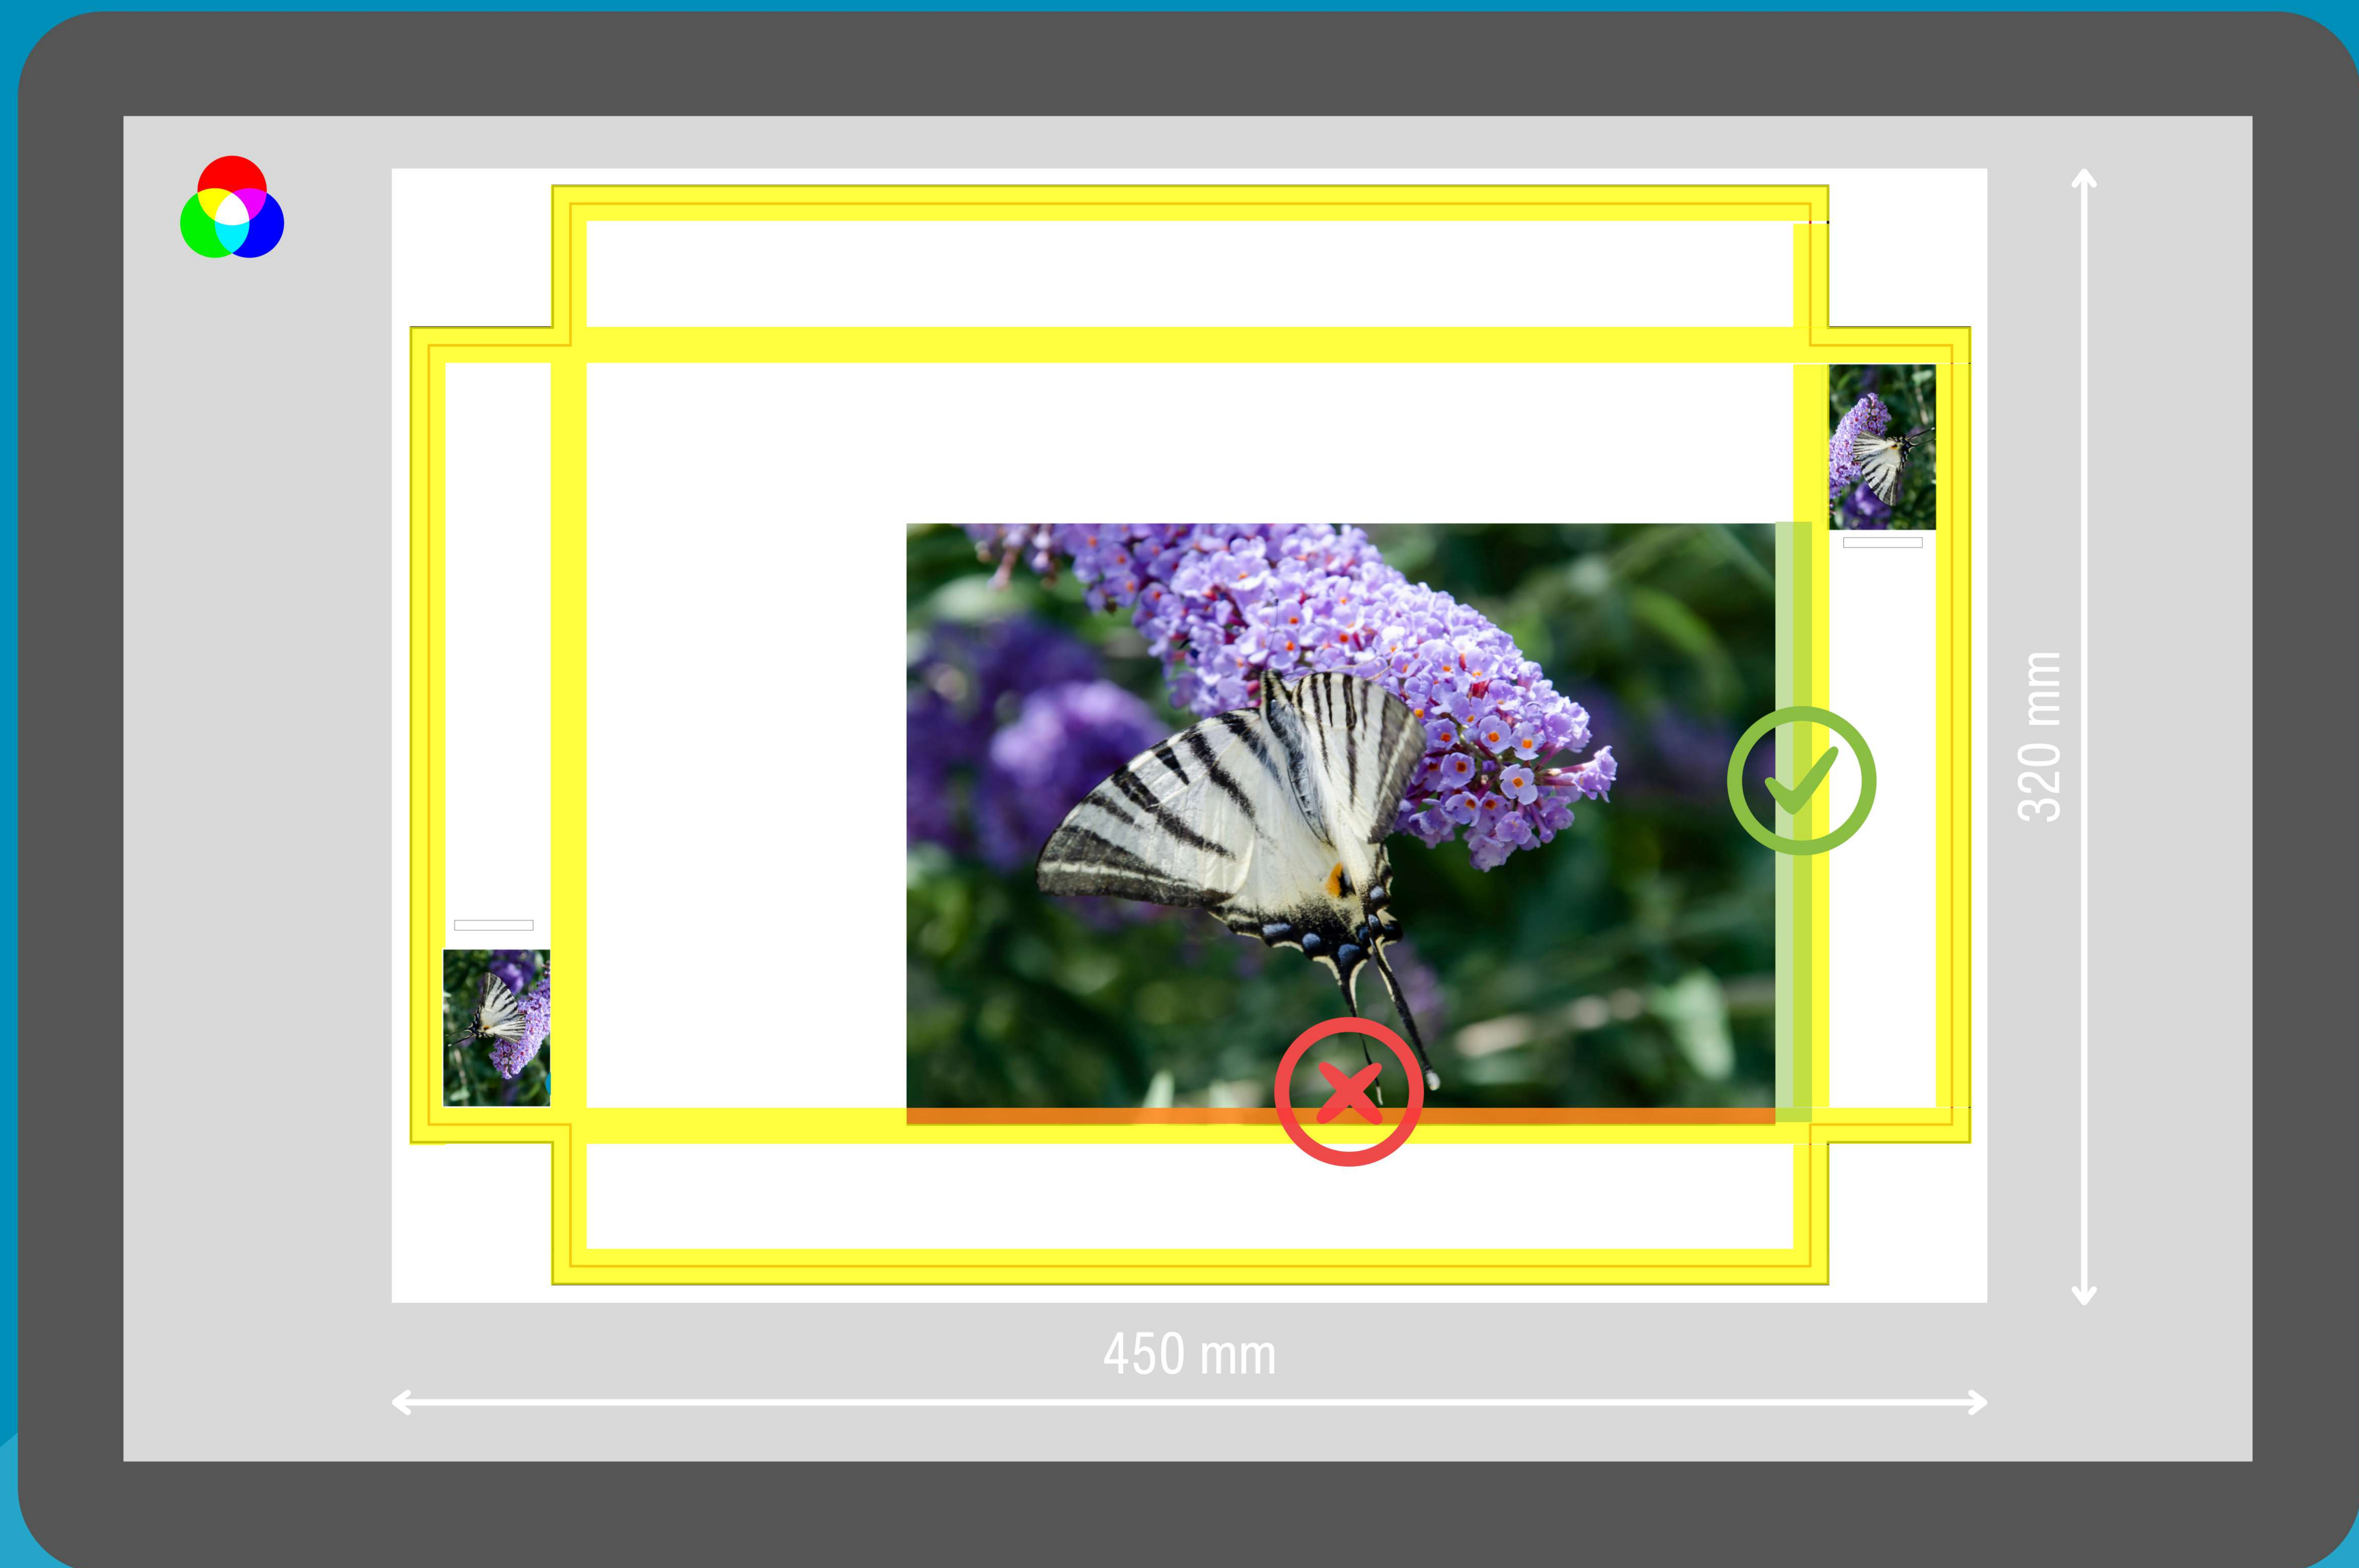

Insert the 'guidelines' document
as a new layer (centered)

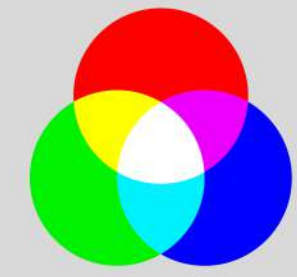

Place the image in the blue areas: main
on the top and smaller on the sides
of the box

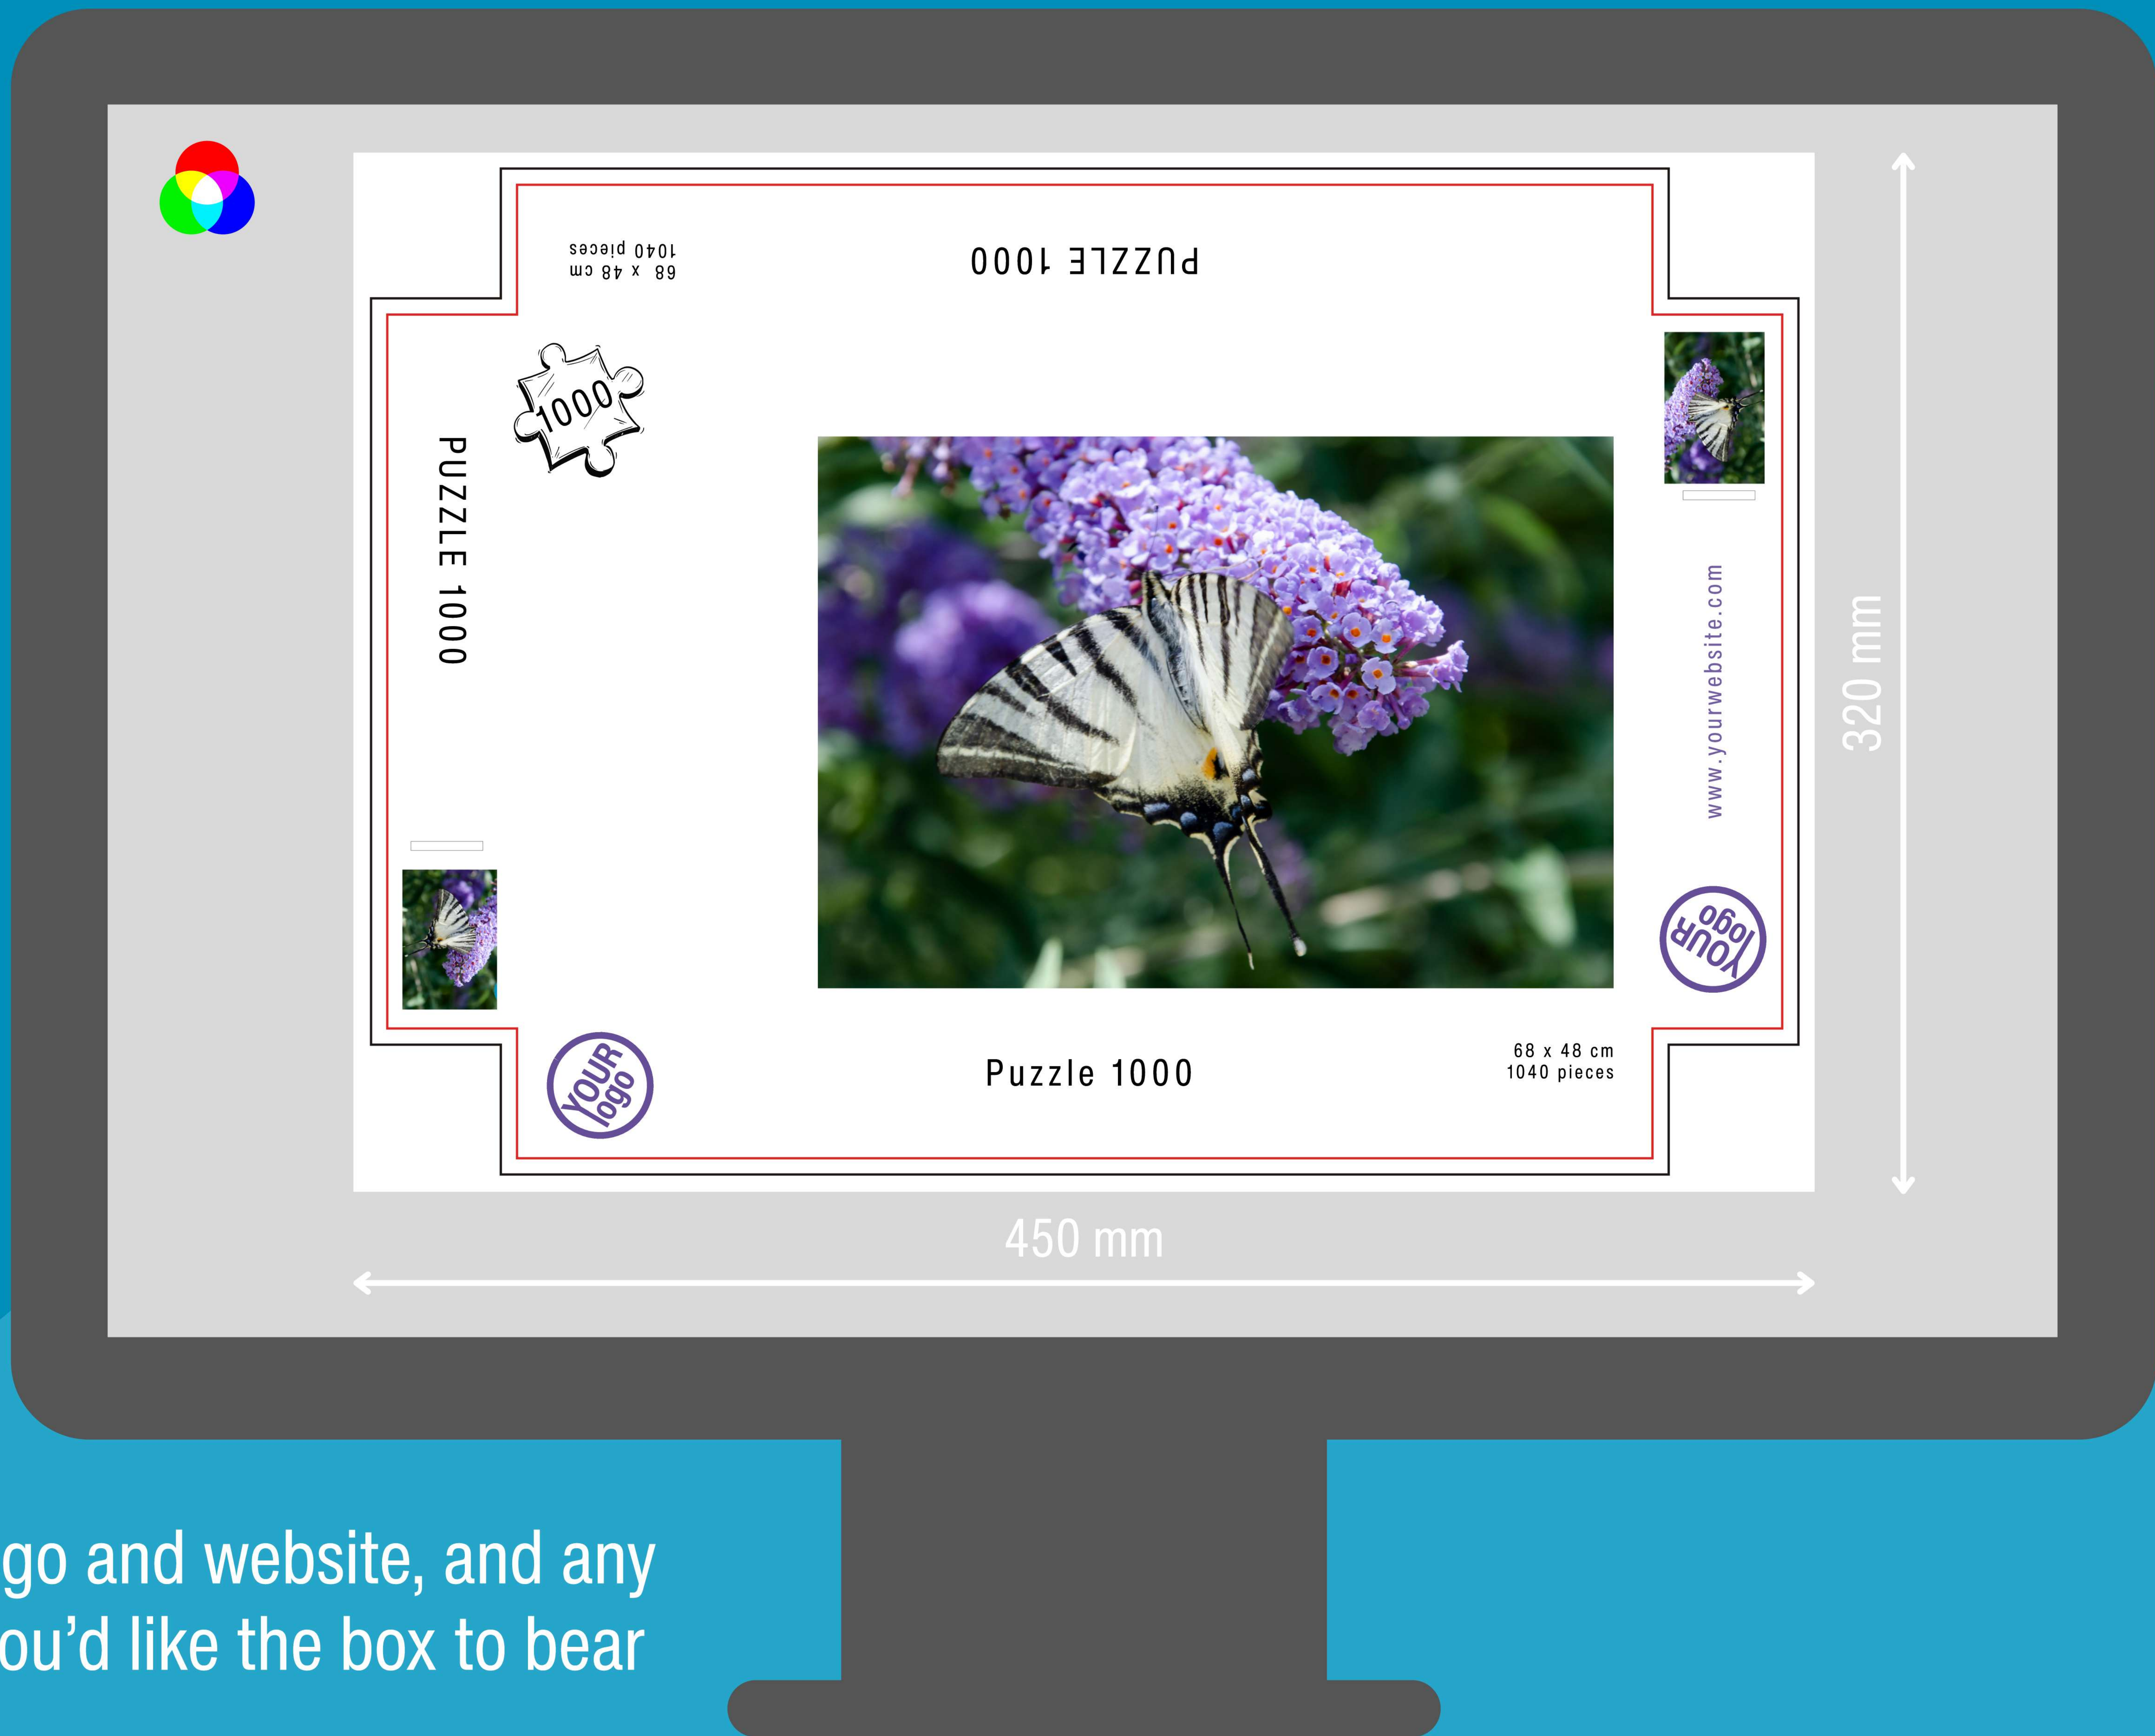

Place the image in the blue areas: main
on the top and smaller on the sides
of the box

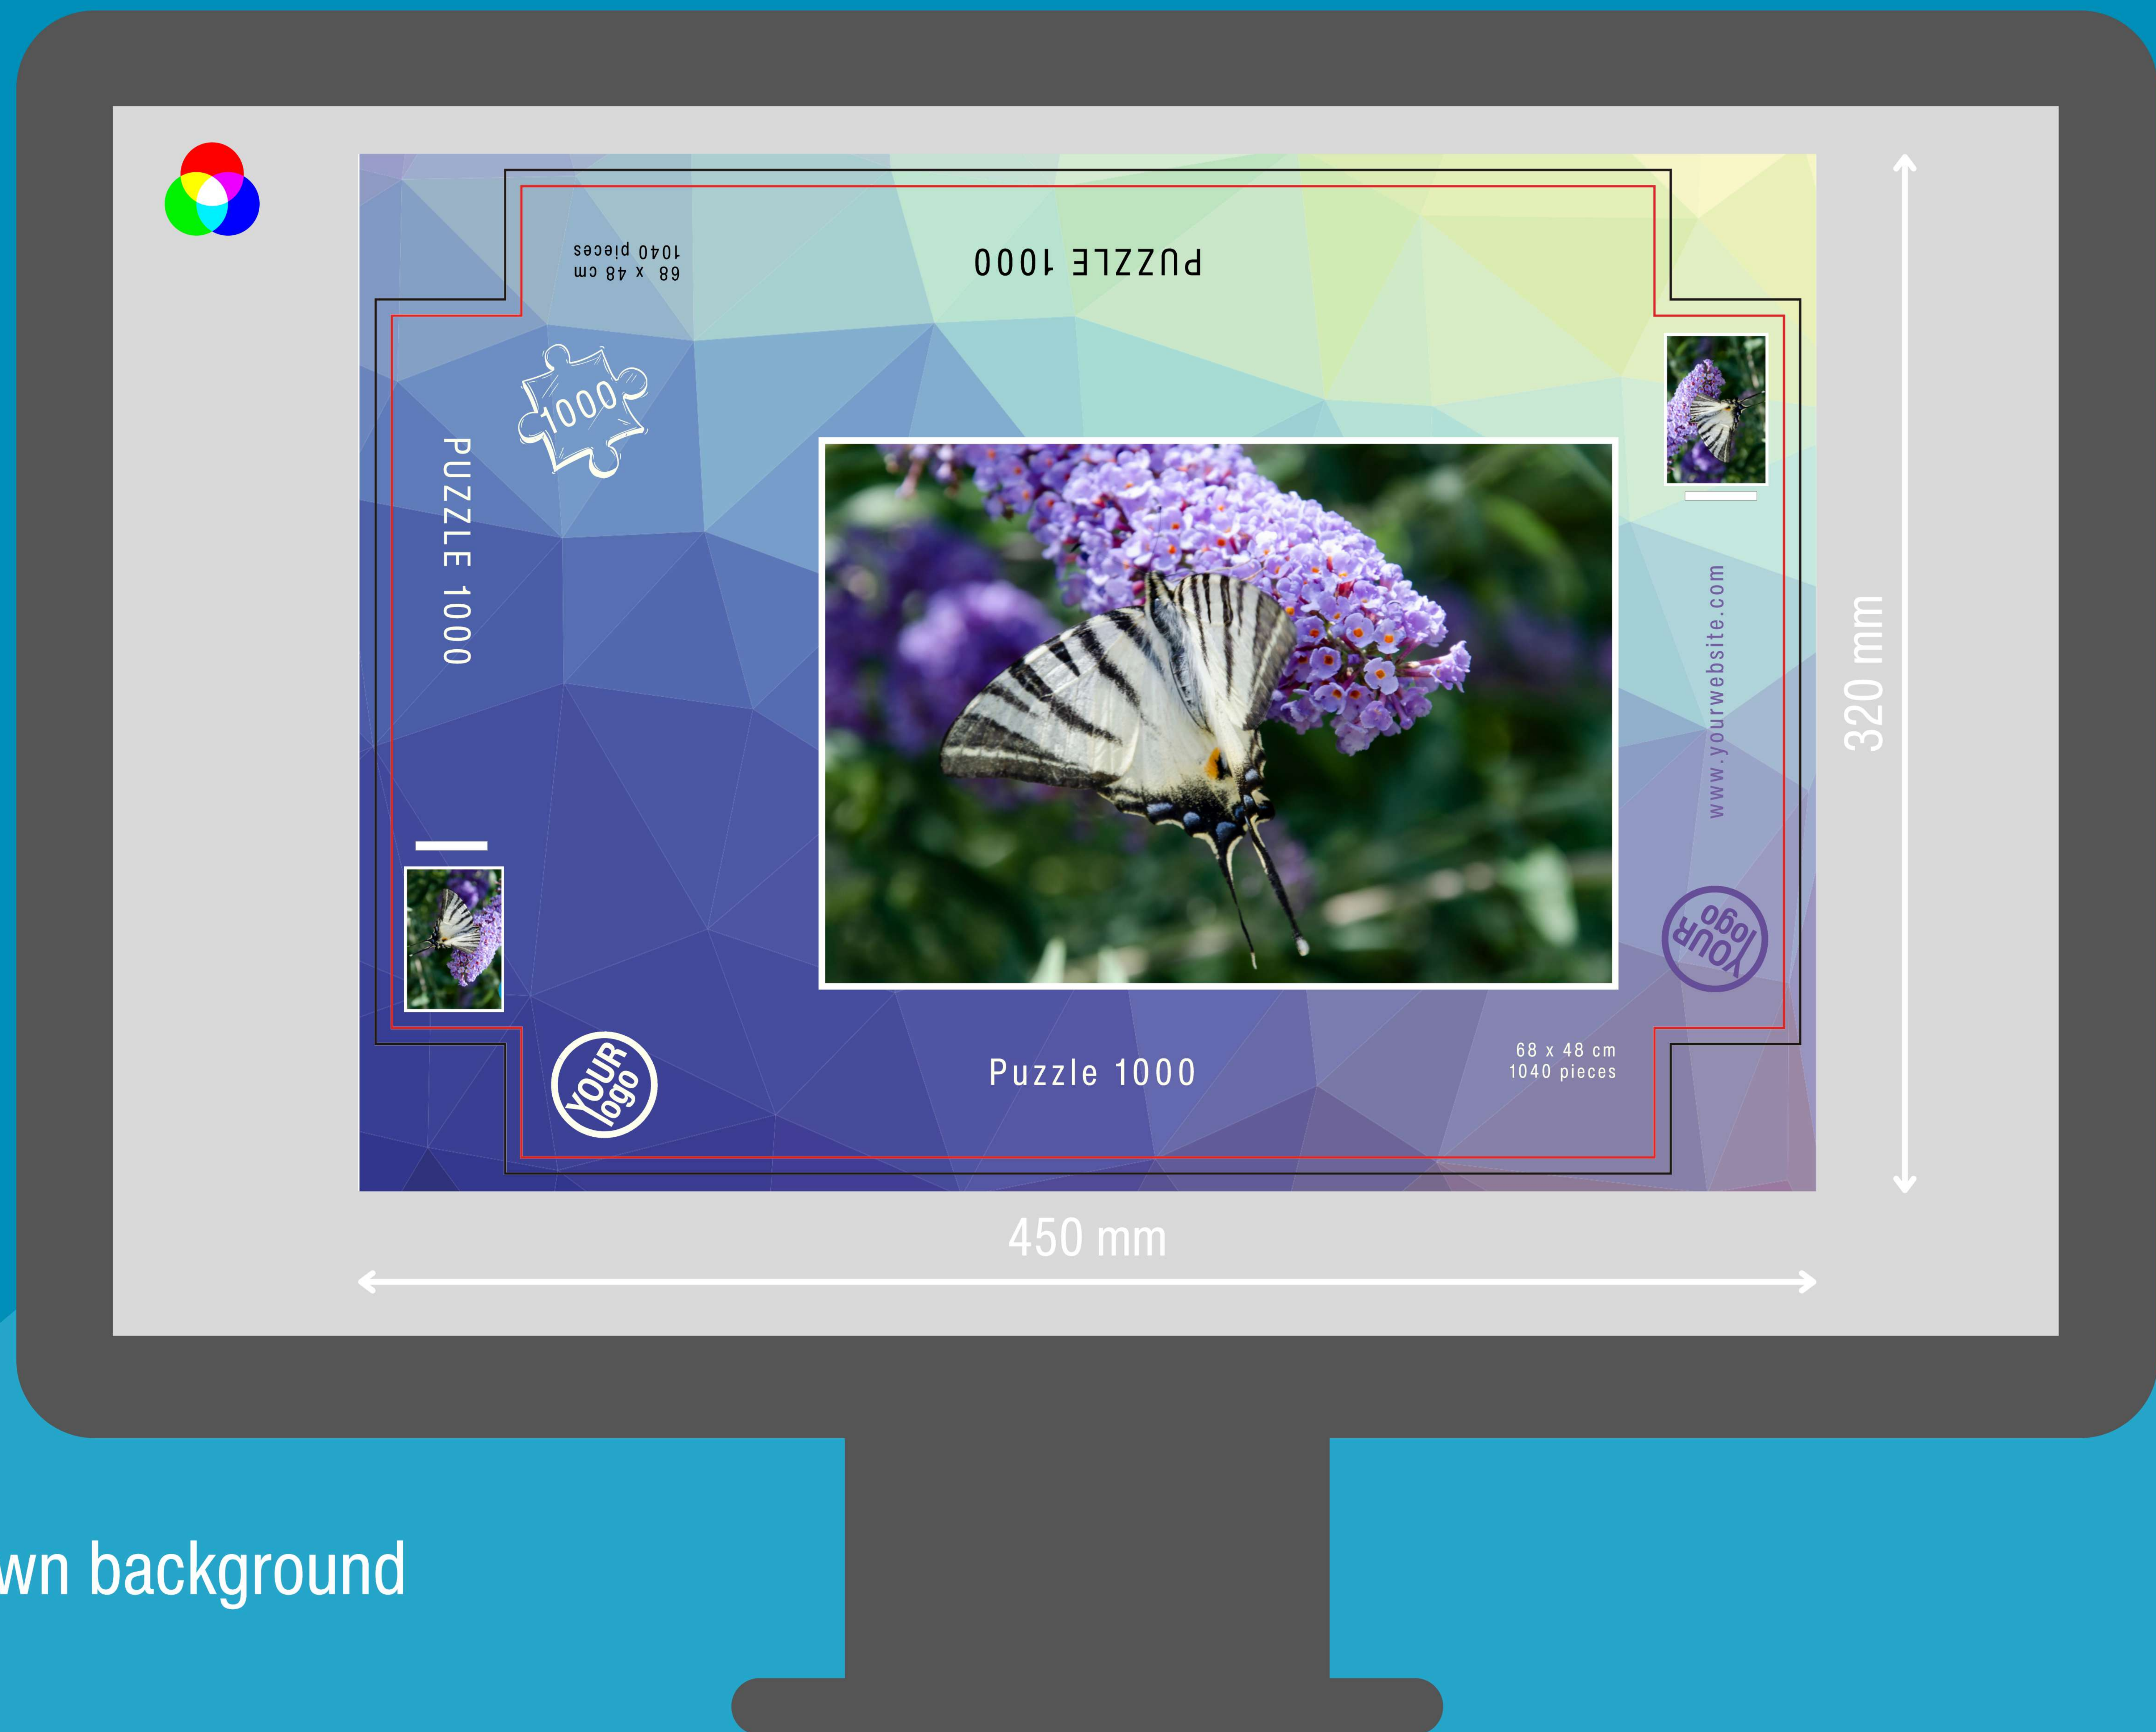

Avoid aligning the photo or any other graphic element with the edges and folds of the box to eliminate inaccuracies.

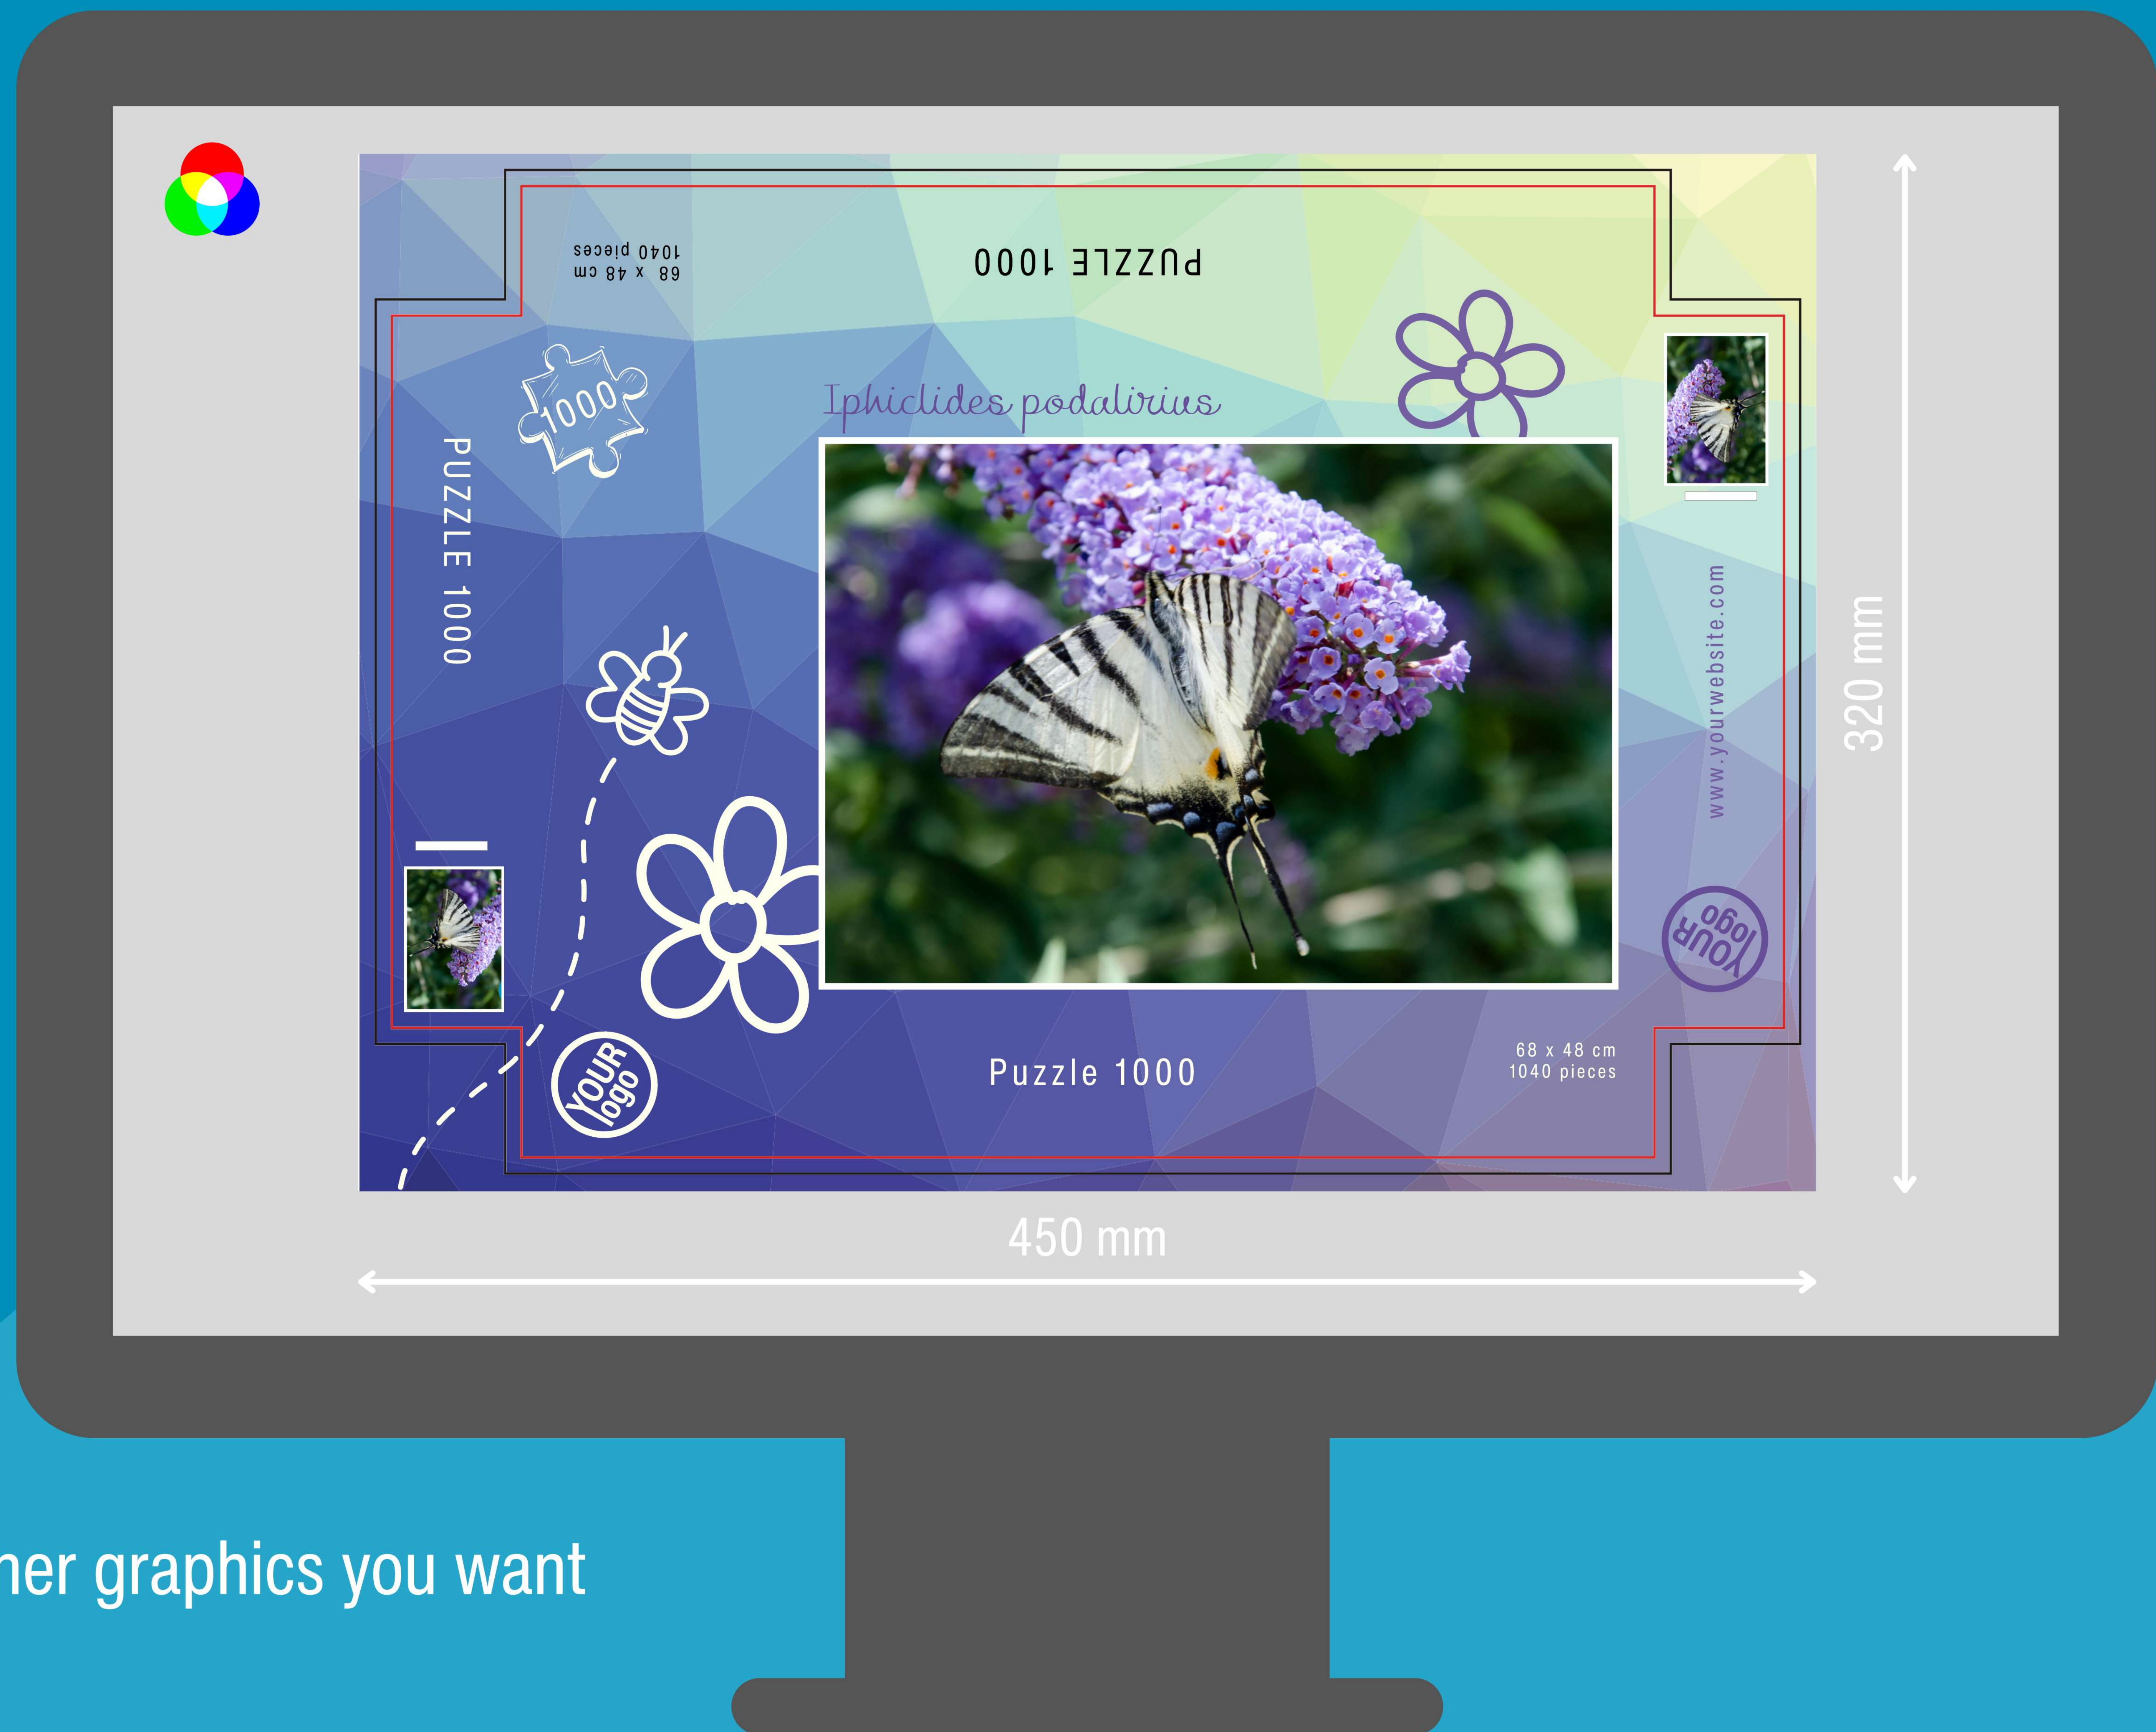

Add some info about the puzzle:
size, dimensions, number of pieces

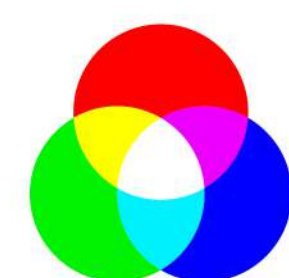

Add your logo and website, and any other info you'd like the box to bear

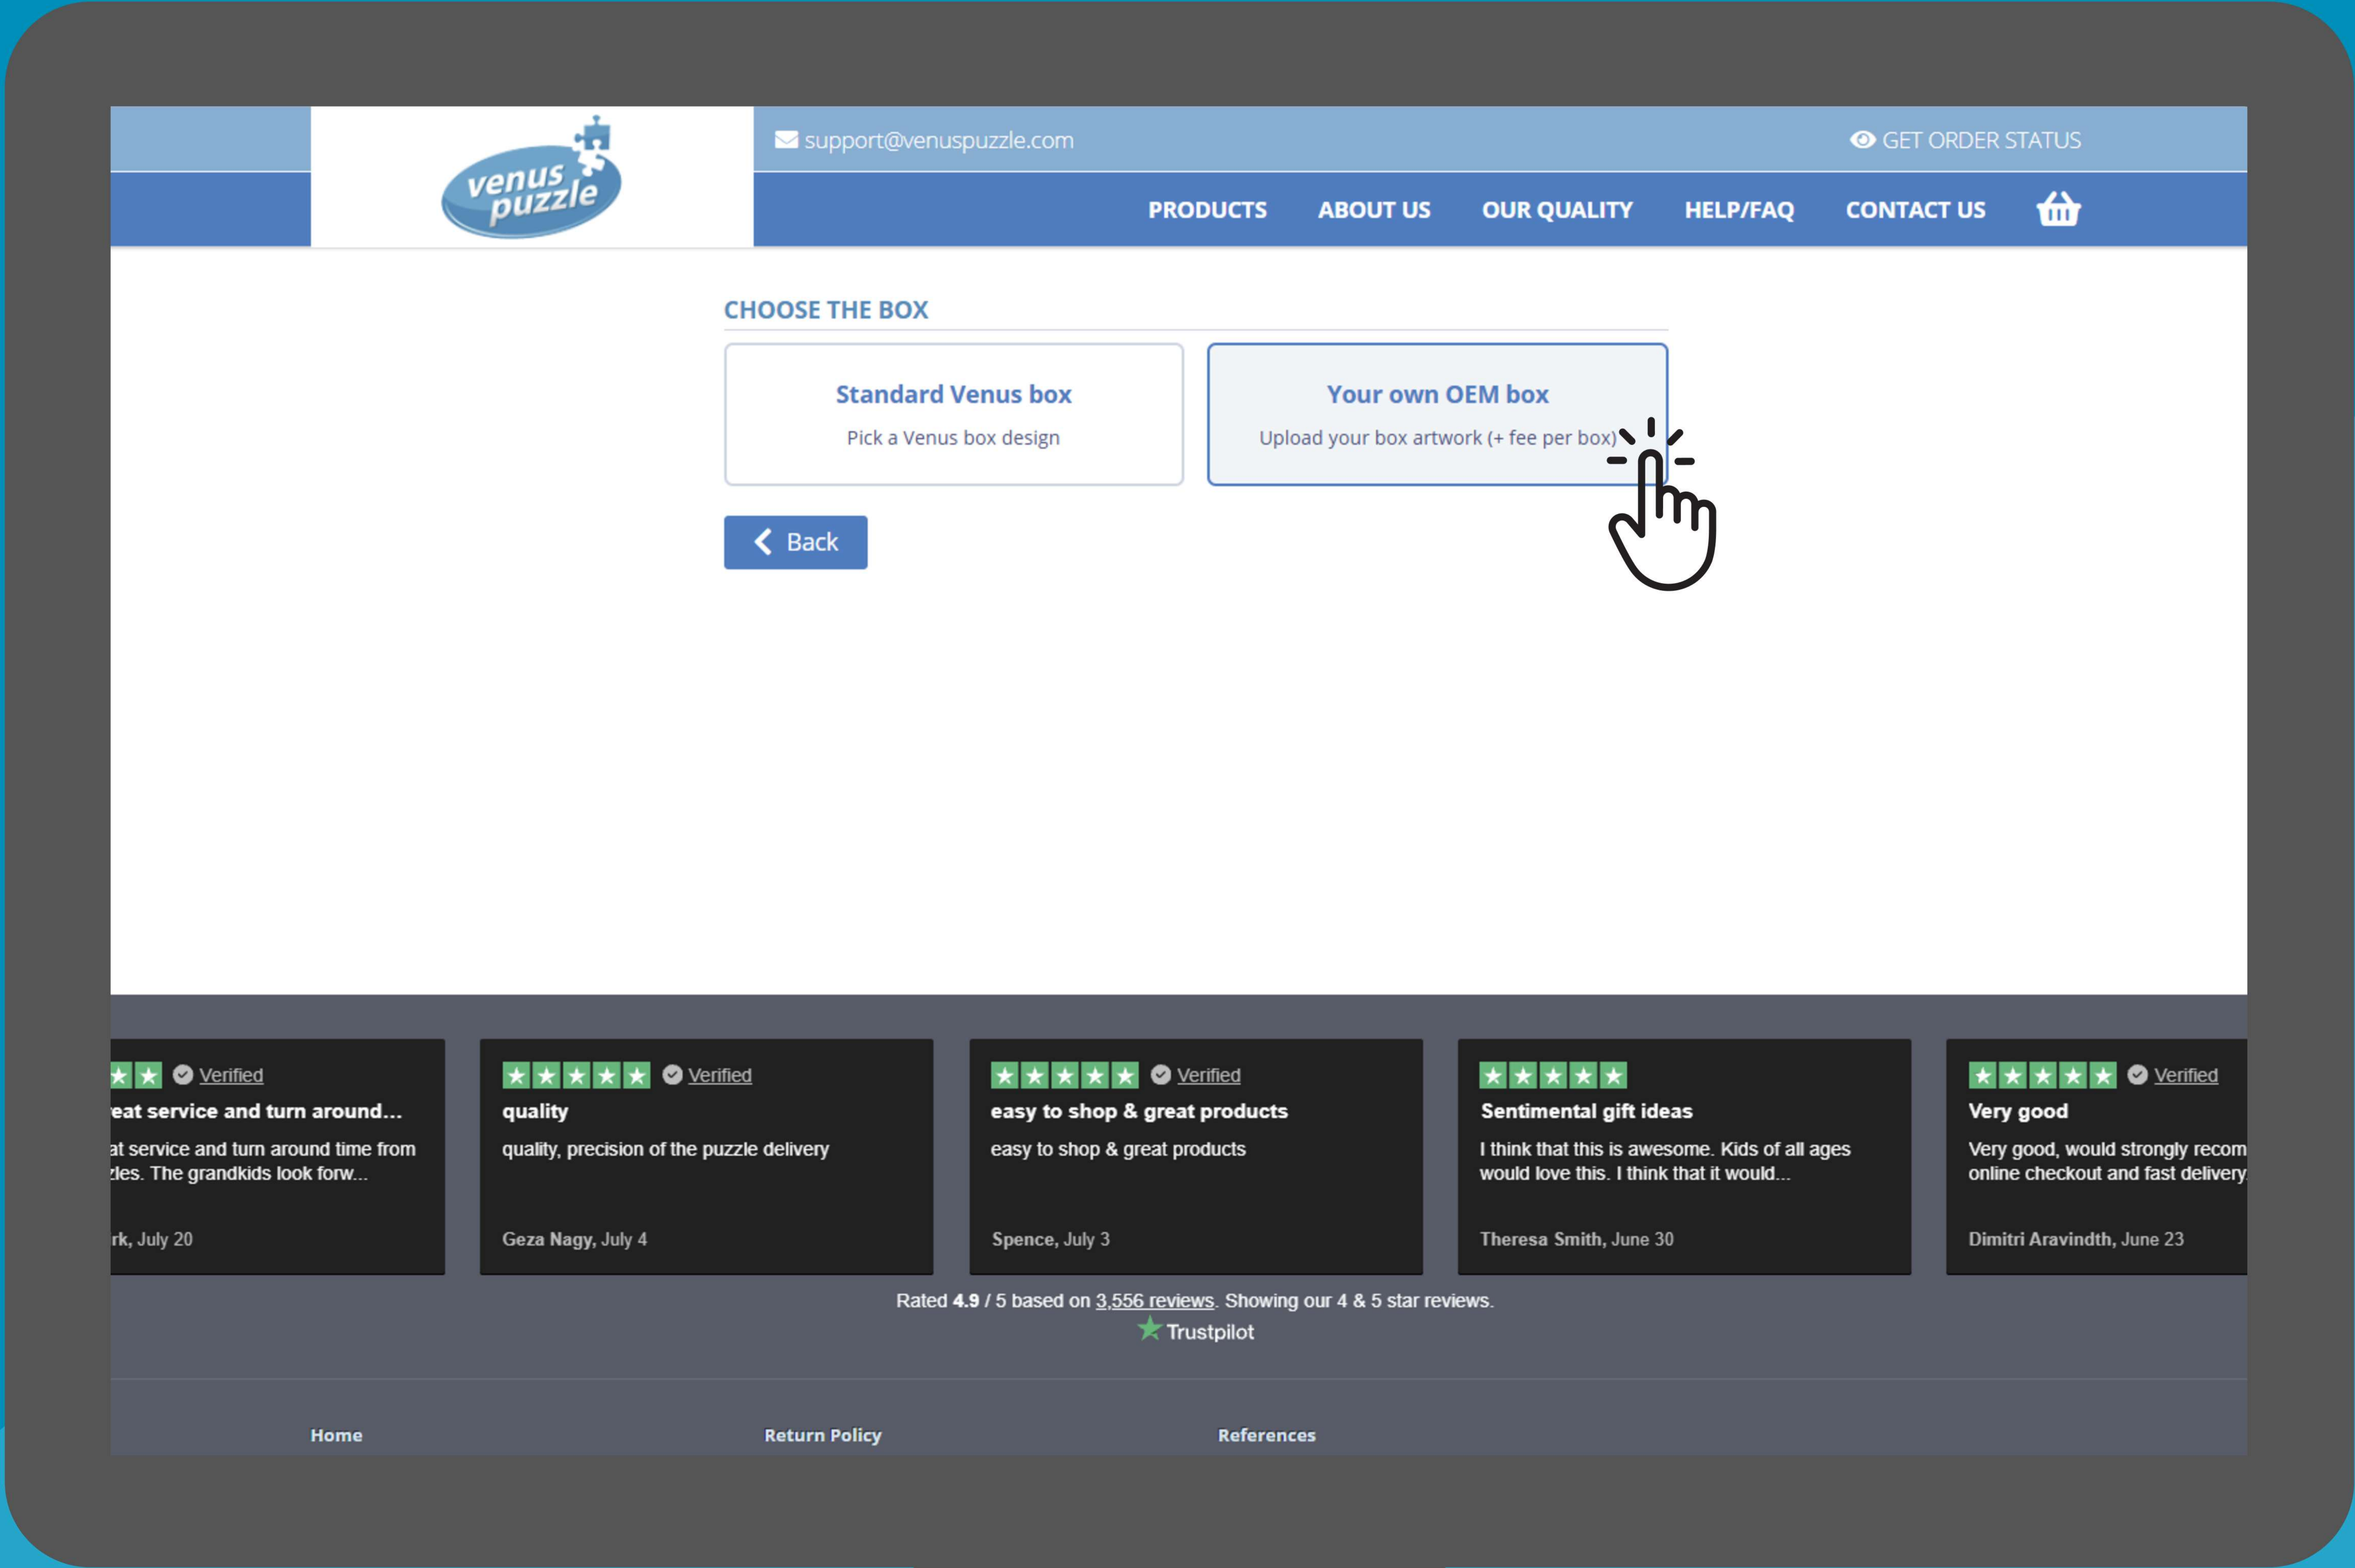

Add your own background

Add any other graphics you want

Hide the guidelines, save the image as a JPG and upload it to the website for the puzzle in your bulk order.
